Josephine Sculpture Park and Inside Out Landscape Design have partnered to collaborate on a major reforestation and conservation initiative for the Park. The *GROW WITH US* Campaign will feature 150 newly planted Kentucky native trees and shrubs in an innovative, interactive landscape design.

GROW WITH US launches in March and will engage the community in a meaningful and lasting way. With donations of \$500, \$1,000 or more to the project, a native shrub or tree will be planted in the donor's or their loved one's name, and will be acknowledged on a permanent *GROW WITH US* donor sign.

This new initiative will place native trees and shrubs throughout the park with interactive features that combine science and art in fascinating ways. The landscape plan will also be focused around the 10 acre expansion and historic Tobacco Barn that was purchased by the Park in 2018 to allow for more community programming with additional exhibition and classroom space in the barn and conserves the land for future generations. *GROW WITH US* is the final phase of the JSP Capital Campaign to purchase the land and restore the Tobacco Barn and native landscape.

Michael and Andrea Mueller, husband and wife team of Inside Out Landscape Design, a local, award winning landscape and hardscape design-build firm, are excited to be part of this forward-thinking project. "As a company, we are dedicated to fully engaging in our community, its beautification and environmental education efforts" said the Muellers. Enriching lives and the environment by creating sustainable outdoor spaces through their vast horticultural experience is a key focus for Inside Out Landscape Design, a family owned and operated business since 2007. "We enjoy making our community a better place and are happy to be able to donate the design, materials, and installation for this initiative. JSP offers so much enjoyment to thousands of visitors and families each year, and we look forward to being an integral part of *GROW WITH US*." You can find more information about Inside Out Landscape Design at kentuckylandscapedesign.com, as well as on Facebook and Instagram.

Now in its 12th year, the mission of Josephine Sculpture Park is to connect people to each other and the land through the arts. With 30 acres, 70 artworks, and artists from 27 states and 10 countries, JSP provides arts and nature education, transformative artist opportunities, and conservation of Kentucky's beautiful native, rural landscape. JSP offers free art and nature experiences and is accessible 365 days per year. At JSP, the Arts are for Everyone!

For more information on becoming part of *GROW WITH US* and to donate a Kentucky native tree or shrub, go to josephinesculpturepark.org or contact Melanie or Christina at info@josephinesculpturepark.org.
